MARCH 15 - MAY 15
2018

OpenART is an exhibition that takes place outdoors and is available for public interaction day and night during the exhibition period. We see possibilities for a wide range of art mediums and techniques but are particularly looking for artworks for the open space and on new ideas on what public art can be.

Open Art is based on a conviction that a creative society builds bridges not walls. It is a unique event that turns the city upside down with unconventional art, encouraging bold ideas and promoting unusual expressions.
