

# OPEN CALL UDDENSKULPTUR 2020

---

10 years have passed since the first exhibition at Udden in Hunnebostrand. Of course we will celebrate this!

It has been found that Udden is an optimal place for exhibiting sculpture. The sea that spreads to the horizon in the west is a perfect background and the rock wall in the east provides a unique experience. With a vertical granite wall as well as shelves and ledges that the quarry has left behind creates an exciting space. Over the years, many great sculptors have exhibited on the site. The exhibition is viewed every year by tens of thousands of visitors.

In 2020, we will try to challenge the site in more ways than before. We will show performance, organize lectures and artist talks etc. to enhance the experience of the fantastic exhibition. For the anniversary, we will also produce a book that reflects both the past exhibitions and the future.

For the 10th anniversary, we will focus on northern Europe with special emphasis on the Nordic connection that has gone as a red thread over the years. We are interested in both finished works and site-specific works. As part of allowing art to approach the population and vice versa, interactive works are greatly appreciated. So if you come from any country in Northern Europe, you are hereby welcome to apply to exhibit at Uddenskulptur 2020 which has its vernissage at the end of June.

We are responsible for transport, assembly, marketing and exhibition compensation. If you have a good and well thought out idea, there may also be an opportunity to get a grant to work with your work.

In your application we wish to see:

- Contact details (name, email, telephone number, address)
- Pictures of your proposal.
- Description of the work incl. height, width, weight and mounting instructions.
- A brief presentation of you and your artistry.

Send your application to [kristin@kkv-b.se](mailto:kristin@kkv-b.se) no later than December 15, 2020. Your application is then processed by an artistic council that will select from the proposals received to put together an exciting exhibition with regard to location access and budget.

To see catalogs, information etc. about previous exhibitions see [www.uddenskulptur.se](http://www.uddenskulptur.se). Konstnärernas Kollektivverkstad Bohuslän is the head of the project. If you have any questions, contact project manager Kristin Jonsson at [kristin@kkv-b.se](mailto:kristin@kkv-b.se) or +46 (0) 79 332 93 53.

We look forward to seeing your ideas!
